

MACal 8900 Pro™

High performance film with removability

A versatile intermediate film most suitable for all your decoration and is featuring a solvent based adhesive with excellent removability.

Over 70 colours, both gloss and matt, make sure that you have all the design inspiration you need for a huge range of creative projects: graphics and signage on windows, vehicles, exhibitions and point-of-sale signage. The new matt pastel colours offer colourful options for indoor decoration.

Outdoor durability of up to 4 years means you have the flexibility to extend short-term installations if needed. MACal 8900 Pro is a simple choice for many medium-term outdoor and indoor applications on flat surfaces, and it gives you trouble-free computer cutting and fast weeding, even for small letters and fine lines.

Intermediate MACal 8900 Pro offers an answer to dependable and residue-free removability. This calendered soft vinyl film is coated with a semi-permanent acrylic adhesive for excellent dimensional stability both indoors and outdoors. It can be removed from many common surfaces without leaving adhesive residue for up to 2 years after application.

Advantages

- High performance removable adhesive with high dimensional stability
- Over 70 colours (both gloss and matt)
- Easy cutting (e.g. small letters/strips)
- Excellent release and optimal weeding, including thin lines and small letters
